

HARVEST — Kindergartners in Claire Overfall's class at Torrance Elementary School wound up the school year by harvesting crops in the little garden outside their room. Shown admiring their carrots and radishes are Renee Rusk, Yolanda Banda, and Ronny Thomas.

Ryan Aeronautical Co. Names New Torrance Aide, Two Others

Three new vice presidents of Ryan Aeronautical Co. were named by the firm's directors at its monthly meeting Friday.

At Ryan's Electronics Division, which has plant facilities in Torrance, Owen S. Olds, director of engineering and customer relations, has been elected vice president.

H. L. Fontaine, now director of manufacturing services at Ryan's San Diego plant, will become vice president-operations at the Torrance facility.

Both Olds and Fontaine report to G. W. Rutherford, vice president and division manager, Ryan Electronics.

R. L. Clark, works manager at the company's San Diego plant since 1956, was named vice president-works manager. Clark is a 17-year Ryan veteran.

Fontaine, who moves from San Diego to the Electronics Division at Torrance where Ryan Doppler navigation and other electronics systems are manufactured, joined the Ryan organization in 1950.

James Hussey Expert in Firing Rocket Launcher

Army Specialist Four James B. Hussey, 1878 Lincoln Ave., recently qualified as expert in firing the 3.5-inch rocket launcher with the 4th Armored Division in Germany.

Hussey, a clerk in Company A of the division's 54th Infantry in Weilbronn, entered the Army in November 1958.

He is a 1954 graduate of Torrance High and attended El Camino College.

Redondo School Official Will Become Building Chief Here

Dr. Bernard Garen, assistant superintendent of Redondo Beach city schools, Tuesday night was named supervisor of educational facilities for Torrance Unified School District.

He will replace James E. Crockett, who resigned to take a post with Palos Verdes schools. The office entails supervision of planning and building new facilities in the district.

During the past 13 years, 30 new plants have been built and more are planned.

Dr. Garen has been deputy superintendent of Redondo schools in charge of business for the past eight years. Before that he was principal in Redondo and a teacher at Inglewood High School and Eastmont Junior High, Montebello.

He has taught extension courses in school finance and law at Los Angeles State and UCLA. A graduate of Pepperdine, he holds master's and doctor's degrees from USC.

He is a native of Philadelphia. A navy veteran, he is a past president of the Redondo Optimists Club. He is president-elect of the South Bay Trojan Club and treasurer of the South Bay Trojan Alumni. He and his wife live at 1313 W. Irena, Redondo. They have one son, Clark, 14.

Bonds Selling Easier

State Treasurer Bert A. Betts today took note of the recent decrease in the discount rate by the San Francisco and Philadelphia Federal Reserve districts from 4% to 3 1/2%.

He said this is one of the factors bringing about a favorable market for sale of California general-obligation bonds.

6 MILLION AMERICANS NOW WEAR CONTACTS!

QUESTIONS AND ANSWERS ON CONTACT LENSES:

- Q. What do contacts do for a girl?
- A. Girls report less shyness and more dates, more self-confidence at work, getting better roles on stage and winning beauty contests, no fogging, and better vision from better corrective value.
- Q. How big are contact lenses?
- A. About 1/3 of an inch wide, and as thin as a piece of paper—much tinier than you imagine, as they need to cover only part of the pupils in your eyes for superb vision.
- Q. What happens if I drop a contact lens?
- A. Because contacts are tiny and made of light plastic, they practically float to the ground. They will not break unless you step on them.
- Q. What has made contacts so popular recently?
- A. The first contact lenses of 25 years ago were almost as large as half an eggshell, and required considerable skill. But 6 million Americans wear today's tiny, easy contacts.

GET THE FACTS ABOUT CONTACTS—F-R-E-E!
